Yuliia Shevchenko

UI/UX Designer

UI/UX Designer with 4+ years of experience designing mobile and web products, with a strong focus on usability, clarity, and conversion.

I specialize in simplifying complex user flows and turning them into intuitive, user-friendly experiences. Experienced in mobile apps, Web3 platforms, marketplaces, and AI-driven products.

I work end-to-end — from defining user flows and building prototypes to delivering high-fidelity UI and supporting implementation with developers.

core skills

Design Tools
Figma, FigJam
Adobe Suite
AI tools (ChatGPT, Freepik AI, Galileo)

Front-End Development
HTML, CSS, JavaScript, React, Strapi

UX Expertise
User flows, wireframing, prototyping, usability testing, user research, design systems

Languages
English (Upper-Intermediate)
Ukrainian (Native)
Russian (Fluent)

education

Beetroot academy - 2024

UX/UI design
Groward academy - 2020

Specialized education
Bachelor's degree, NTU «KhPI» - 2012 - 2017

portfolio

Portfolio:
j-sheva.github.io/portfolio-shevchenko

experience

Aug 2025 – Apr 2026
UX/UI designer
Cobalt Creative Agency

- Designed web experiences for global brands with a focus on usability, clarity, and conversion
- Collaborated with cross-functional teams to deliver cohesive and high-quality product solutions
- Contributed to visual direction and UI decisions aligned with business goals
- Improved design workflows and team collaboration, helping reduce iteration cycles and speed up delivery

Nov 2024 – Aug 2025
Product designer, UX/UI
Evadav Traffic Group

- Designed mobile applications (iOS & Android), focusing on core user flows, onboarding, and paywalls
- Improved usability and clarity of key user journeys, reducing friction in critical product flows
- Built and maintained scalable design systems to ensure consistency across multiple products
- Created interactive prototypes to validate solutions and support product decisions
- Collaborated closely with product managers and developers to deliver high-quality features in a fast-paced environment

Apr 2024 - Nov 2024
UX designer, Front-End developer
Startups

- **EcoEquity**. Designed and built the front-end for a carbon credit marketplace, creating a clear and structured experience for complex Web3 transactions and ensuring transparency in user flows.
- **Qualoo**. Redesigned UX/UI for a global mobile app focused on network diagnostics through decentralized nodes. Simplified complex functionality into clear user flows and introduced gamified elements to encourage user engagement.
- **Viruta Health**. Rebuilt the company’s website using React and Strapi CMS, improving structure, maintainability, and overall usability. Delivered a modern UI/UX that made navigation more intuitive for a diverse user base.

Now 2022 – Apr 2024
UX designer
BlockTrust

- Designed Web3 dashboards and complex interfaces for blockchain-based products
- Simplified technical flows to improve accessibility for non-technical users
- Built and scaled design systems with reusable components and structured UI patterns
- Collaborated with cross-functional teams to improve product usability and structure
